

**WOOD  
IS OUR WORLD**

# HIGH-QUALITY WOOD PRODUCTS FOR WINDOWS, DOORS AND FACADES

We are a well established company in the international trade of high quality wood products and an important partner of the window, door and facade industry.

In our modern production plant we manufacture top-grade wood products “made in Germany” in a sustainable and responsible way. Our production processes in the Leutershausen factory are certified in accordance with the currently applicable FSC®, ift\* and PEFC codes of practice for the most important wood species.

Our service: thanks to a well-stocked order-picking warehouse, we offer order-specific delivery to our customers!

# STATE-OF-THE ART TECHNOLOGY FOR INNOVATIVE WOOD PRODUCTS

  
**Made in Germany**

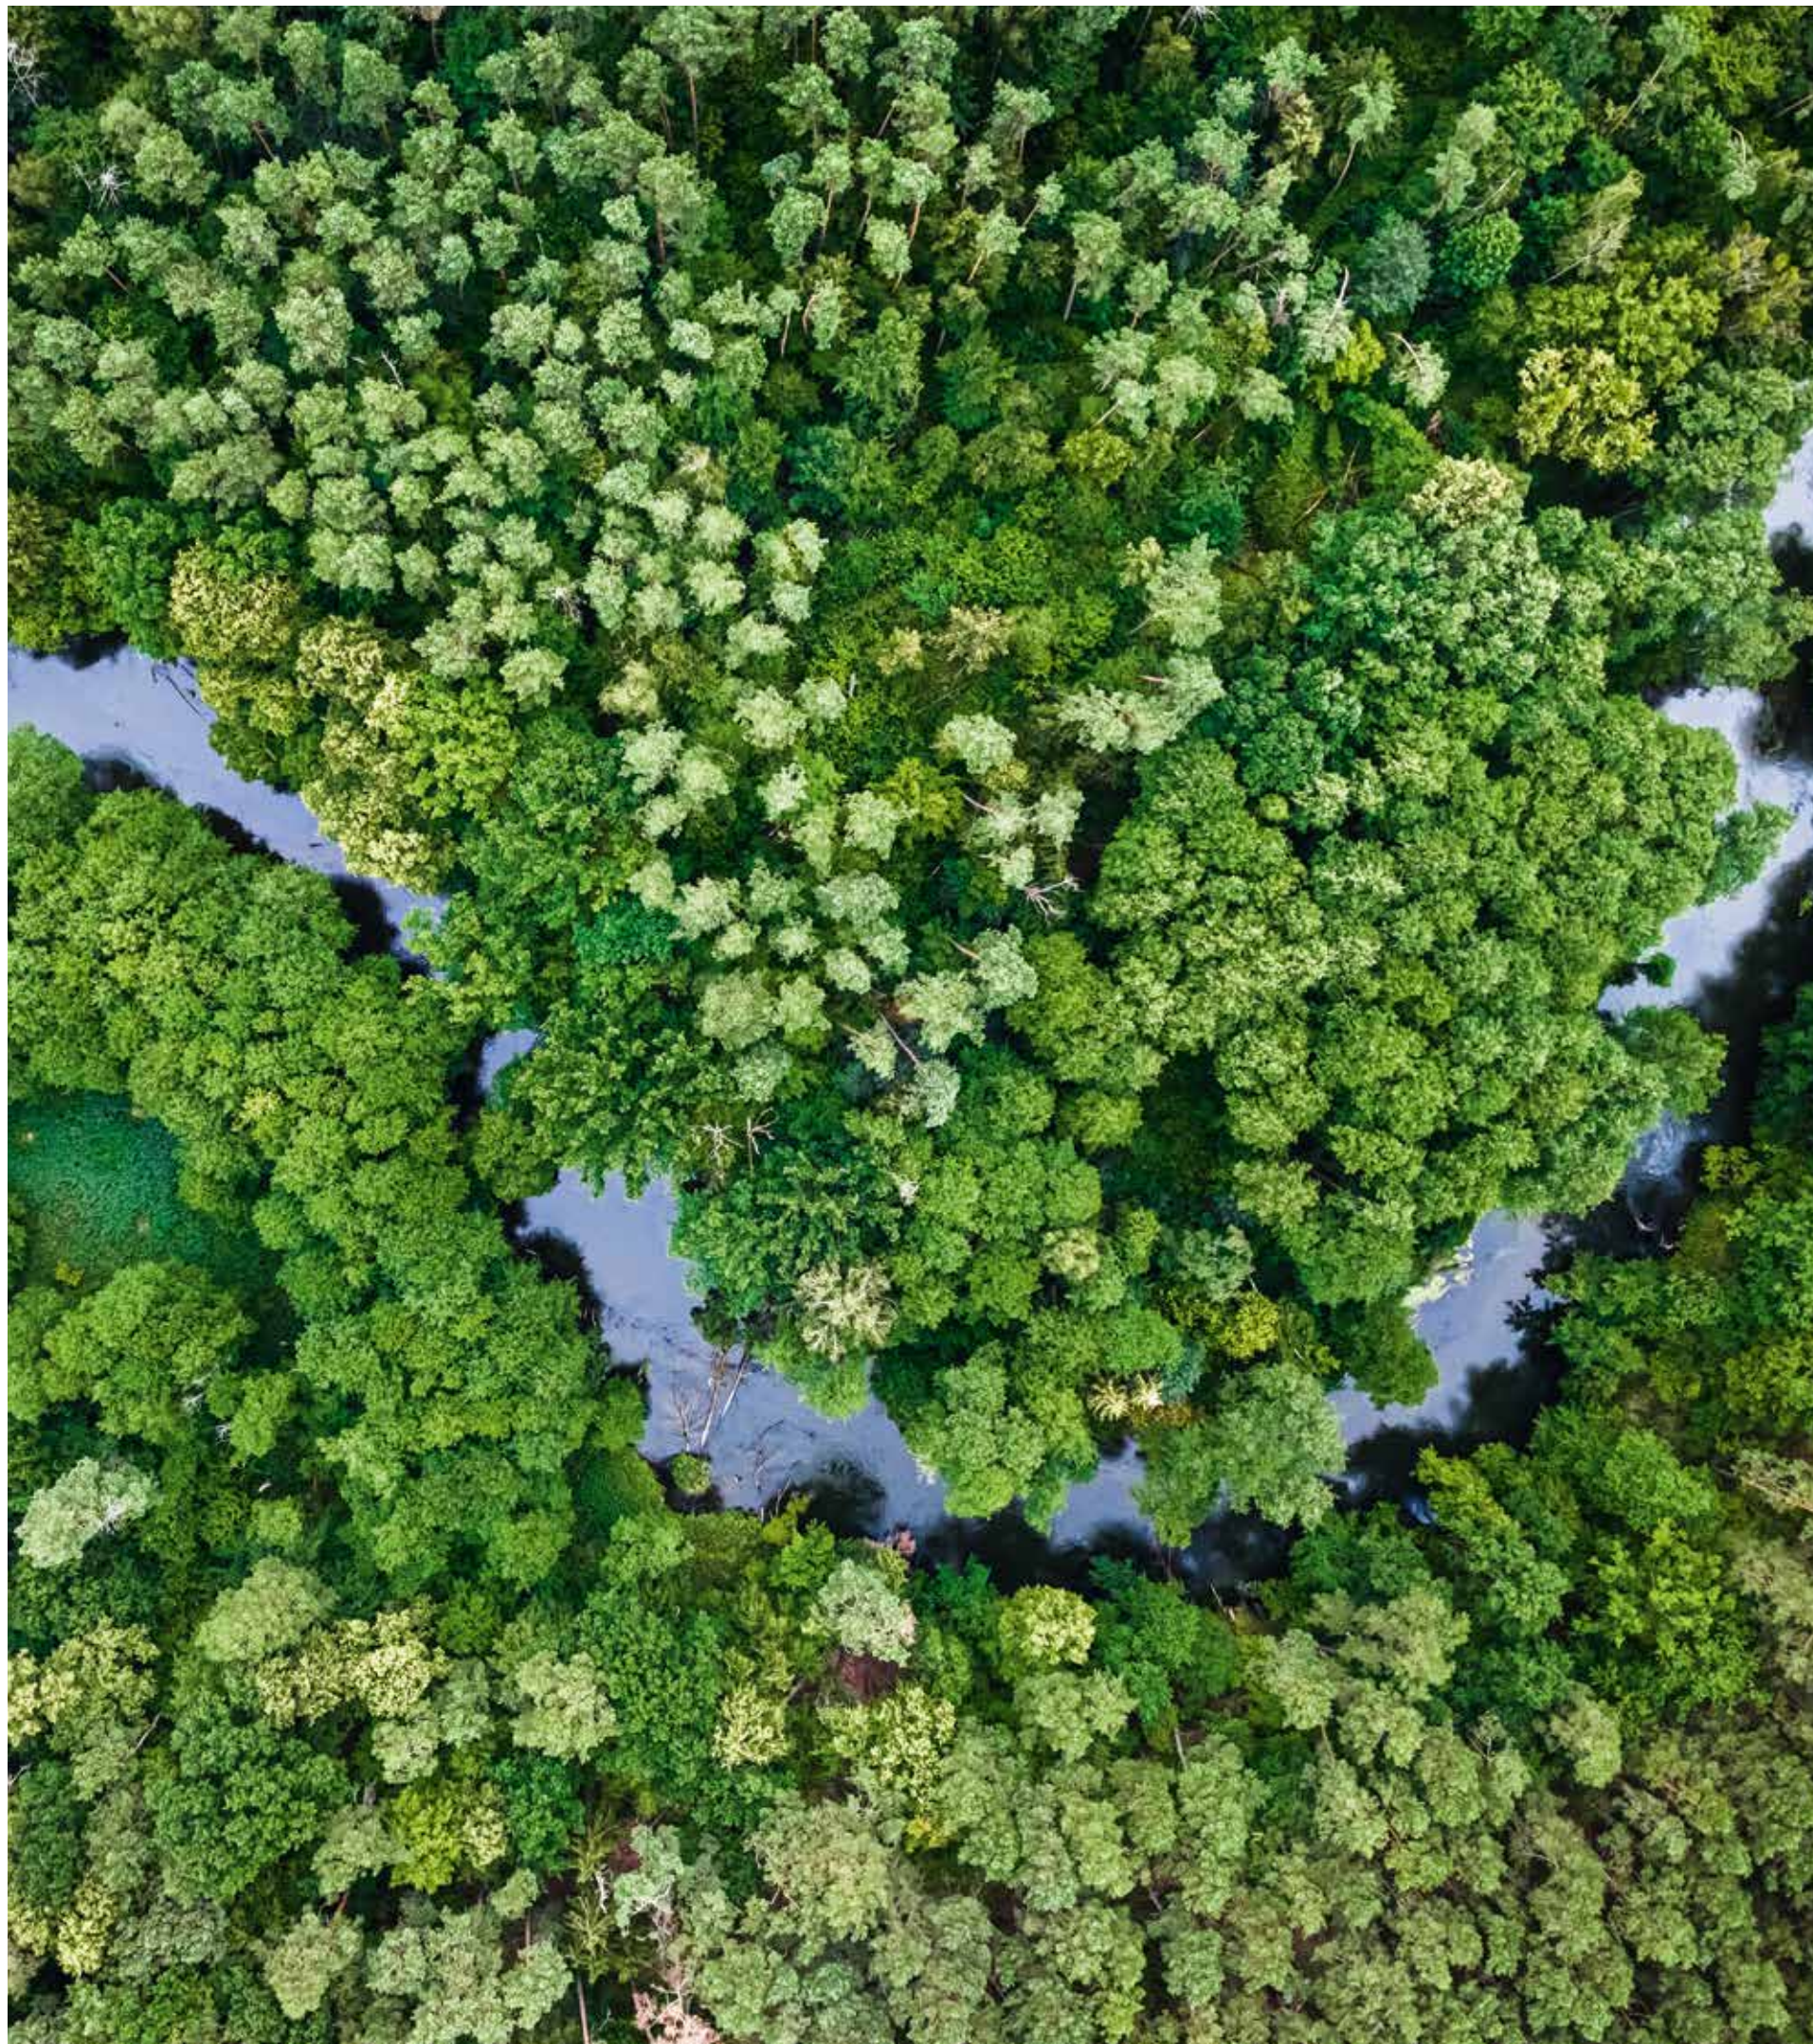

The name Münchinger stands for quality and first-class service.

Our modern production facilities allow  
short high speed processes, precision, efficiency and  
flexibility with regard to dimensions and wood species.

Our high and, in many respects, leading production standards do  
not only provide intelligent solutions and a wide product range,  
they also ensure a best possible price-performance ratio.

# ECOLOGY AND SUSTAINABILITY

Sustainable and environmentally sound business is one of the greatest challenges of our time. Only if we respect and protect the resources that are the basis of our life we will have a long-term perspective. In our factory in Leutershausen, we use 100 % of our wood in an ecological cycle, starting with the cutting of the timber, moving onto the finger-jointing and gluing of the wood and including optimisation.

All wood wastes, such as sawing or planing chips, are processed to make environmentally sound premium briquettes.

The efficient exploitation of resources and conscientious management of nature are the basis of our activity and philosophy.
