

RED GRANDIS

(BOTANICAL NAME "EUCALYPTUS GRANDIS")

NATURAL AND
SUSTAINABLE

RED GRANDIS

a wood of ethically correct origin, from inexhaustible sources
and of superior quality. Made in Uruguay.

Originally, eucalyptus trees came exclusively from Australia, Tasmania and New Guinea. In the meantime, eucalyptus is the most widespread plantation tree in the world, with growth heights of over 50 metres and a flawless wood quality.

Countries like Uruguay, Brazil, Africa or India take advantage of the excellent properties of eucalyptus and cultivate it in enormous quantities.

SUSTAINABLE

Eucalyptus grows quickly and can adapt very well to climatic changes. Therefore, it is often used to reforest cleared woodland.

Red Grandis is the hardest and heaviest eucalyptus species and a popular timber for windows, doors and furniture due to its beautiful red colour. It is distinguished by its **durability and resistance to termites and pests**.

It is environmentally friendly, available in large quantities and comes of course from **100 % FSC-certified plantation cultivation**. This guarantees both the sustainability of the wood and the financial and social security of the plantation workers.

Red Grandis is listed in the instruction sheet HO.06-1 of the German Window + Fassade Association (VFF) as an independent wood species and has a gross density of 570 kg/m³.

It satisfies the requirements of durability class 2 as per EN 350-2.

The thermal conductivity is 0.13 W/mK, which is excellent for hardwood.

AVAILABLE DIMENSIONS:

LAMINATED RED GRANDIS SCANTLINGS DK(K)D*

Bulk density of 570 kg approx., uniform colour,
D4 adhesive in accordance with EN 204

| 3-ply | 3-/4-ply | 4-ply |
|-------------|-------------|-------------|
| 72 x 86 mm | 84 x 86 mm | 96 x 86 mm |
| 72 x 115 mm | 84 x 115 mm | 96 x 115 mm |
| 72 x 145 mm | 84 x 145 mm | 96 x 145 mm |

* D = continuous ply, K = finger-jointed ply

RED GRANDIS SAWN TIMBER

Uniform colour, flat grain, artificially dried

26 x 155 mm
28 x 155 mm
33 x 155 mm
40 x 155 mm
52 x 155 mm

Lengths:
2.45 m to 4.90 m
